11. Do at least two of the following:

a. Observe an amphibian to find out:

1. Where and when it sleeps.
2. When it leaves its home for food.
3. How fast it can travel
4. How far it can jump, and as many other interesting things as you can find out about it; or hatch frog eggs in your own aquarium and watch them grow to tadpoles, or write an essay covering the details requested in the first section of the question.

b. Hatch some amphibian eggs and watch them through their growth cycle and write an essay covering the details.
